Meeting called to order by President Jeff Davis

MINUTES previous meeting approved as presented.

PROGRAM-- Tour of new KVFD Fire Prevention Trailer

OLD BUSINESS--

- Review of Election Results
- Hazmat Operator Level Training – Lon states that this should be considered in January. There seems to be no sense in having individual trainings when we can do it county wide. There are 14 people needed for a class and we know we can fill it. It is important to get the Operation level done to support Technician level. The Awareness level class will be in November with the Operations level in January. Darrin moved to have Lon set this up. Seconded by Kevin and approved unanimously.
- Shelton will have an awareness level class on the 15th and 16th of this month.
- Lon advised that any training people want to do, just call to use the KVFD facility.

NEW BUSINESS--

- Discussed Fire call that both Elm Creek and KVFD were called to. Some confusion about who's fire district Daykin Road is in. ECVFD needs Fire District maps. Lt. Butler will bring 8 to next meeting. It was decided that if they both get called, they both should go and sort it out later.
- Kristi Grint is putting on a 1st responders class in Elm Creek. It will be 2 nights a week and 3 hours each night. This will start in November. Cost is \$208.00 + \$70.00 for materials. Trying to generate some interest.
- Joe Graf stated that the Good Sam EMS PI meeting will be held the 2nd week in October. Last years meeting was good and this one should be equally good. This should also cover AED and Airway recerts.
