Four Additional Nebraska Counties Now Eligible for FEMA Reimbursement for Repair, Replacement of Public Facilities; Two Counties Receive Additional Assistance

LINCOLN, Neb. – The major disaster declaration for the State of Nebraska has been amended on May 6, 2019, to authorize Public Assistance (PA) grants for six additional counties to help pay for repair and replacement of public facilities damaged as a result of the March winter storm, straight-line winds and flooding.

The amendment adds:

- Four counties, **Clay, Dawson, Kearney and Polk**, designated for all PA categories (emergency work and permanent work).
- Two counties, **Seward and York**, now designated to receive PA permanent work as well as the emergency work for which they originally qualified.

FEMA's Public Assistance grant program provides federal assistance to state and local governments and certain types of private nonprofit organizations following a presidential disaster declaration. Public Assistance can help communities quickly respond to and recover from major disasters or emergencies.

Through the program, FEMA can reimburse eligible costs for debris removal, life-saving emergency protective measures and the repair, replacement or restoration of disaster-damaged publicly owned facilities and the facilities of certain private nonprofit organizations. The Public Assistance program also encourages protection of these damaged facilities from future events by providing assistance for hazard mitigation measures during the recovery process.

As a result of the amendment, there are now 76 Nebraska counties designated for all categories of PA assistance. Four counties and five tribes have been designated for emergency work and debris removal assistance.
